Preface

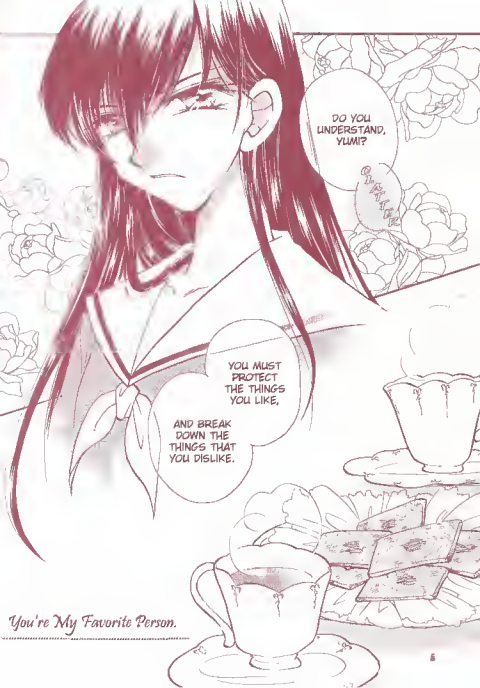

It's nice to meet you! I think most of you didn't know of us before. We're Amecyan* How do you do! ☺ Well then, about Marimite! It's all girls, and there's no sex or violence. Just girls being cute. It could be considered a dream world. I really jumped at it. Platonic yuri is nice, isn't it...! *sigh* ☹ I still have a lot of pages left to read, so this book will be about the Chinensis and Foetida families (and the gay guy! Well, that's par for the course ☺) But it's hard to draw something based on a novel. I tried to be careful and attentive, but I realized that Rei-sama was completely wrong. For the time being, I fixed the front page. Please forgive me. It's my first time! I feel like a beginner in a lot of ways. But I'd be happy if you enjoy my work. Please go ahead and enjoy!

—Sora ho

Good afternoon, I'm Mogami Mikan. This is a Marimite book. I was asked to do a story about Kashiwagi-sempai and Yami's younger brother, so I did my best. Well, actually, the truth is that my favorite couple in Marimite is Yami and her brother. But since the main plot of the book is yuri, a normal (although it's incest) pairing wouldn't fit, would it? So this is a yuri book. I read somewhere that because yuri is a genre that's aimed at men, it isn't popular. I hope the Marimite boom leads to an increase in yuri. So I thought to myself that it would be okay to do a plot about gay guys aimed at women, for this book.

DO YOU
UNDERSTAND,
YUMI?

YOU MUST

YOU DISLIKE.

You're My Favorite Person.

Or could it be because
the cherry trees have
invaded the view
outside the window
with pink?

Is she in a bad mood
because she took out
the coconut sable biscuits
without realizing it?

There is nothing
that Onee-sama feels
ambivalent about

Everything falls within
the category of either
'like' or 'dislike'

I want to try to view the
world through her eyes

and be able to clearly divide
it into two categories

YOU DISLIKE
GINKGOES,
DON'T YOU,

YES.

ASPARAGUS,

Amecyan is a circle comprised of two people, Soraho, who does art, and Mogamji Mikan, who does art and story

This is our first Marinite book. We've done Tsukihime and original books. If there's something you like, please buy it

Regardless of genre, there are a lot of shoujo manga-like serious and heartwarming stories. Also some gags and adult bits

As for the original books, they're books that would appeal to girls, boys' love books, and adult books. Our tastes are pretty narrow.

Right now, we're working on our first digital novel, "A Little Replica." Peripheral things such as a trial version and preliminary books are coming out. We're planning to begin selling it in early summer. (It's been postponed a bit...)

We're active on the WWW too, a bit
<http://www.004app.so-net.ne.jp/amecyan/>

It's basically information on our offline activities, so there isn't much content.

There are our plans for events, distribution of our books, and a bulletin board. If we feel like it, we might put up some artwork someday.

For now, as creation of the digital novel progresses, we're planning to offer a free shortened version and a trial version (The aforementioned demo version is already available for download. We'll be presenting another trial version to the public within five months), so if you have time please come take a look at our page.

As for events, we attend events aimed at guys in the Kanto region*. For the most part, we bring new books to each event, so please stop by, if you'd like. Or, you can get it at a bookstore or have one mail-order it for you.

Please look for them at places like Tora no Ana (www.toranohana.co.jp), Mensesa N'o-, or Melon Books (www.melonbooks.co.jp).
